

BIOPHOS - TS

The Performance Enhancer

Purpose:

- ✓ Improves nutrient digestibility of phosphorous, amino acids, protein & trace minerals
- ✓ Reduces accumulation of phosphorous in the environment
- ✓ Reduces excretion of nitrogen and lowers feed cost
- ✓ Increases the growth performance in young chickens

Composition:

Each gram contains:

Phytase5000 FTU

Inclusion Rate:

Layers: 100 grams per tonne of feed

Broilers: 100 to 200 grams per tonne of feed

Caution:

Not to be fed as it is. Biophos-TS is recommended for further processing through poultry feed. Thoroughly clean all mixing equipments before preparing feed for any other species.

Presentation: 1 Kg
