

FLOXCURE™

Ofloxacin 10% w/w oral powder (Vet)

Benefits

- ✓ Ultimate drug of choice for treatment of many gram-positive & gram-negative bacteria
- ✓ Ideal oral antibacterial in the case of severe disease outbreak
- ✓ Reduces economic loss to the farmers

Features:

- ✓ Maintains healthy farm condition
- ✓ Acts effectively in severe disease conditions
- ✓ Effective against gram-positive & gram-negative organisms
- ✓ Controls mortality and reduces morbidity very fast

Mode of action:

Floxcure is a broad spectrum antibiotic active against both gram-positive and gram-negative bacteria by inhibiting DNA gyrase, a type-II topoisomerase and type-IV topoisomerase which is an enzyme necessary to separate replicated DNA, thereby inhibiting cell division.

Composition:

Ofloxacin IP 10% w/w
Excipients Q.S.
